Aspen Polo Partners LLP (Applicant) is seeking to obtain a separate contract from Contact 701 for their property. Contact 701 has previously approved specific uses associated with Zone 1 of the former Aspen Polo Partners development. The Applicant's property is located at 150 Chukka Trail located near Carbondale Colorado and east of Catherine's Store (Parcel No. 239131123004) as shown on **Figure 1**. The property is also known as Lot 4, McClure River Ranch. The property is within BWCD Division 5.

The proposed uses are for a Horse Barn including a 4 bedroom ADU, 10,000 square feet of irrigation, bathroom, washroom, slop sink, and horse stalls (including washing stations) for up to 24 horses. Contract depletions are estimated at 1.2 acre-feet (AF) as summarized by LRE and estimated by Roaring Fork Engineering on the attached tables.

The source of water supply for domestic and commercial uses is the APP Barn Well No. 4 (15 gpm; Permit No. 84781-F) located in the SE1/4 NE1/4 of Section 31, Township 7 South, Range 87 West of the 6th P.M. at a point 1,706 feet from the north section line and 854 feet of the east section line (UTM NAD83 4363968 N, 315239 E). The Applicant will need to amend their well permit for the new uses and reference the new District contact number.

LRE Water recommends that approval of this contract be contingent upon Contract 701 being amended downward to remove the uses associated the Lot 4.

**APPLICATION FOR WATER ALLOTMENT CONTRACT
BASALT WATER CONSERVANCY DISTRICT**

**ASPEN POLO PARTNERS
APP BARN LOT 4**

Introduction: With this application, Aspen Polo Partners LLP seeks a water allotment contract for its Barn Lot 4 property. This application arises out of the partial assignment of Contract No. 701a from Aspen Polo Partners LLP to Aspen Polo Partners LLP as individual owner of Barn Lot 4. That assignment was completed and approved by the District in July of 2023. A copy of the partial assignment is attached with this application for convenience. Aspen Polo Partners LLP ("APP") held Contract No. 701a which provided allotment water to cover well uses on the entire Zone 1 of APP's development. APP owned all of the property in Zone 1 at the time Contract No. 701a was issued and amended.

APP subdivided Zone 1 into six barn lots (Barn Lots 1-6), an event center lot (Lot 7), and two tracts for the polo fields (Tracts A and B). The barn lots are to be held individually, each with its own well and water supply. Barn Lots 1, 3, and 5 have been conveyed to individual owners other than APP. The event center lot, Tracts A and B, and Barn Lots 2, 4, and 6 will continue to be owned by APP, although APP is marketing Barn Lots 2, 4, and 6 for sale to other parties. Based on this, APP partially assigned Contract 701a to each individual lot owner, including APP, itself, as the individual owner of Barn Lot 4. As a condition of the District's approval of the partial assignment, the District requires that each individual barn lot owner re-apply for a stand-alone allotment contract for each individual lot. APP submits this application for a stand-alone allotment contract for Barn Lot 4 in compliance with that condition.

In addition, APP seeks to increase the uses over what is allowed under the current contract for Barn Lot 4. In that regard, APP applies for full-season irrigation water for 10,000 square feet and for demand for a 4-bedroom apartment instead of a 2-bedroom apartment which is what the existing contract (701a) provides.

6. Legal Water Supply: (please check one)

X Applicant requests consideration by the District to be included in the District's Umbrella Plan for Augmentation decreed in Case No. 02CW77.*

*Note: Certain applicants may qualify to be included in the District's Umbrella Plan at the District's discretion. In order to be included in the District's Umbrella Plan, the Applicant's depletions must occur within the District's defined "Area A" and the Applicant must reimburse the District its *pro rata* share of the District's expenses in obtaining the Umbrella Plan decree. Costs of reimbursement are contingent upon location and intensity of the uses, and range from \$1,200 for contractees with less than 2 units (EQRs) in certain areas, to \$5,000 for more than 8 EQRs in Area A-3 (generally the Roaring Fork drainage above its confluence with the Fryingpan Rivers).

_____ Applicant will obtain its own plan for augmentation by applying to the Water Court, Water Division 5 within 2 years of this application. If Applicant has already applied for its own change/approval of plan for augmentation, the Water Court Case Number is: _____.
